“ Kristen, Kelly, and Chad:

My sincere condolences on the recent loss of your father. Although I only knew Chip for a few years (even though you all were my neighbors for around 4 years), what I will always remember is Chip's deep sense of family, his sharp and intelligent mind, and his never ending desire to make other people's lives a little bit better. He never gave up believing in God and the kindness of people around him. I am truly a better person because Chip was a part of my life. You all take care and May God Bless You. Bruce Baer
