“ *I was Bobby Lee's first physical therapist when he was at the UCP Center in Wilmington. We knew immediately what a very special and precious child he was and that he would grow up to do great things and teach many people about the tremendous abilities of those we label as disabled. Rest in peace sweet young man.*

“ *I remember meeting Bobby when he was little. He always wore a smile and brought laughter to everyone. I am honored to have known him then and as a friend on Facebook. He is now dancing and walking with his Mama Kit. God bless and comfort those who heart is broken and rejoice that he is with the Angels.*
