

## William Kenneth Anderson

September 19, 1926 - November 8, 2019

William Kenneth Anderson age 93, passed away on November 8, 2019. He was born on September 19, 1926 to Akaberry Anderson and Mamie Mitchell. William or as he liked to call himself Wild Bill, especially to the Hospital staff was a Studebaker enthusiast. For many years he drove and traveled to Studebaker car shows Where He won several trophies. He even sorted a custom license plate That said? "STUD" until his newly married bride Judy Anderson, said it had to go. William aka Wild Bill Loved to tell a good joke. And was a practical joker. One of his favorite things to do was to tickle your nose while you were sleeping, only to stand back and watch you swat away what you thought was a fly, and laugh As you tried to go back to sleep and he did it again until the sleeping victim realized what was happening.

This tradition is still being carried on to this day by his son, James and daughter Rebecca. William loved to see things grow, and he continued to plant a garden even after his cancer diagnosis. He thought he would never live to see or taste his tomatoes, but to his surprise even at 93, he was able to see his garden of tomatoes, cucumbers and peppers grow and be eaten. He loved a good taste of whiskey and joked about how he was half Irish and half Scottish and the problem was one side of the family loved to drink but the other side was to cheap to pay for it.

His passion was teaching people about the Bible. And up until he was unable to speak, he faithfully continued to talk about Gods Kingdom to any one that

would listen.

He was not afraid of death, but looked forward to the fulfillment of Revelation 21:3-4.
