

William "Bill" Power

March 21, 1949 - March 27, 2026

William "Bill" Power peacefully transitioned to Heaven on March 27, 2026 in Wilmington, NC. He boldly moved with his family from Venezuela to USA in 1977 and earned an Engineering MS from Northeastern University. After a forty-three-year career, he retired to North Carolina where alongside the love of his life, he witnessed their grandchildren grow into good men.

He valued conciseness, logic and efficiency; he is best described by words from his loved ones:

He was Honorable and Decent.

A man of unwavering morals, the cornerstone of his family. Respected by anyone that knew him.

A man of integrity; a beloved brother; a loyal friend.

A brilliant engineer, avid problem solver and mentor to many. He never stopped learning.

The funeral mass is Friday, April 10th at 10:30 AM, St. Mark Catholic Church Wilmington, NC. A reception will follow in Parrish Hall. Rather than flowers, donations can be made to Lower Cape Fear Life Care or to support STEM education for our youth.

GP

“ My uncle William was one of the kindest and most welcoming men I ever knew. Whenever I needed someone to listen, he was always there for me. I will never forget his kindness, intelligence, vast knowledge, and his passion for automobiles. I find consolation in imagining him now reunited with his brother, my father Henry, in heaven. They are probably taking a drive together, sharing old jokes,, just as I know they would.

Guillermo Power - April 04 at 03:11 PM

“ Bill worked with Debbie and me at Zenith for several years, both on Cherry Street in West Newton and after we moved to Waltham. He was a great colleague and, more than that, he was a great friend. We went through some turbulent, great, fun, challenging, funny and rewarding times together. Bill will be missed.

Robert Martell - April 02 at 02:18 PM

“ *Bill is missed beyond words, but his legacy will live on for many generations as those he mentored continue to pass his wisdom and values on to the next generations.*

His contributions are infinite and timeless. I will certainly miss him as a mentor but more so as a great friend.
